The following is an examiner's statement of reasons for allowance: Bentsen (US 4673383, figure 8) is the closest art of record and teaches reclosable closure structure with one single pair of ribs 55 extending from the flanges of each base member. The difference is that claim 1 requires "a single flange for attachment of the closure to a web or film extends laterally from only one of the two base members" while flanges extend from each side of the male/female closures of Bentsen. While Kapperman et al. (US 6004032, figure 11) teaches a closure fastener wherein a single flange extends from the female member 154 and there are no flanges extending from either side of the male member 152, there is no suggestion from Kapperman et al. to modify the device of Bentsen to remove all but one flange of the device of Bentsen while maintaining the rib structure.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to James R. Brittain whose telephone number is (571) 272-7065. The examiner can normally be reached on M-F 5:30-2:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, J. J. Swann can be reached on (571) 272-7075. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
